- Excel VBA

TECHNICAL SKILLS

Project Controls	Planning, Scheduling, Cost Control, EVM, S-Curves, Forecasting	Scheduling	Primavera P6, MS Project, CPM, TIA, Resource Loading, Baseline Management
Cost Management	Budgeting, Cost Forecasting, Variance Analysis, Cash Flow, Commitment Tracking	Reporting & BI	Power BI, DAX, Power Query, Excel (Advanced), KPI Dashboards, Progress Reporting
Delay & Claims	EOT Analysis, Forensic Delay, FIDIC, Mitigation Strategies, Recovery Schedules	Leadership	Team Supervision, Cross-functional Coordination, PMO Support, Stakeholder Management

PROFESSIONAL EXPERIENCE

Youssef Marroun Contracting Company

August 2024 – Present

Senior Planning & Cost Control Lead (Manager Role)

Leading Saudi contractor — 3,000+ employees — large-scale infrastructure and building EPC projects. Riyadh, KSA.

- Lead a team of 5 planning and cost engineers delivering integrated project controls across multiple concurrent projects totaling \$250M+.
- Built integrated **Primavera P6** schedules aligning budgets, procurement, and cost forecasts—enabling real-time variance detection on Dallah Healthcare Medical Complex (\$184M).
- Deployed **Power BI** executive dashboards linking baseline budgets to actuals, adopted by executive leadership for portfolio-level decisions across \$250M+ portfolio.
- Delivered monthly **EVM**-driven variance analysis and **S-curves** guiding corrective actions and keeping projects within ±5% cost variance.
- Coordinate with Project Directors, Finance, and Procurement to synchronize schedule progress with cash flow forecasting and financial reporting.

CAP France BAT for Contracting Company

October 2023 – August 2024

Senior Planning & Cost Control Lead

Specialized Saudi contractor — 1,500+ employees — complex building and infrastructure EPC projects. Riyadh, KSA.

- Supervised a team of 2 planning and cost engineers managing project scheduling and cost control on MOF Building FB-01 (\$40.8M).
- Maintained **Primavera P6** schedules achieving 95% milestone compliance on MOF Building FB-01 through proactive resource alignment and recovery planning.
- Delivered weekly **EVM** reports and **S-curves** facilitating timely consultant approvals and on-time payment milestones.

Al Enjaz for Contracting Company

October 2022 – October 2023

Senior Planning & Cost Control Lead

Saudi general contractor — 2,000+ employees — building, infrastructure, and fit-out projects. Riyadh, KSA.

- Managed **Primavera P6** schedules and cost control for NWC water network projects valued at \$42M, delivering all milestones within ±3% of baseline.
- Performed **EVM** analysis and variance reporting, reducing monthly close-out cycle from 14 to 7 days for Client and Consultant submissions.
- Built automated **Power BI** dashboards enabling real-time **KPI** tracking and reducing manual reporting effort by 50%.

Jadwa for Contracting Company

May 2017 – October 2022

Planning & Cost Control Engineer

Leading Saudi contractor — 1,500+ employees — building and infrastructure projects. Riyadh, KSA.

- Led project controls for multiple commercial developments totaling \$55M+, delivering all projects on schedule through integrated **Primavera P6** scheduling and cost tracking.
- Coordinated with consultants for design change impact assessments, **EOT** claims, and recovery planning, resolving 12+ claims without litigation.
- Prepared monthly progress reports and cost forecasts for executive management, enabling proactive budget adjustments and maintaining ±5% cost variance across a portfolio exceeding \$300M in cumulative project value.

Al Fawzani & Partners for Contracting

December 2013 – May 2017

Planning & Cost Control Engineer

Leading Saudi contractor — 4,000+ employees — governmental infrastructure (MOH, MOI, MOF, MOT, Amanat Riyadh, RCRC). Riyadh, KSA.

- Performed planning and cost control for large-scale governmental projects worth over \$300M, maintaining zero payment disputes across all projects.
- Developed **P6** schedules and cost baselines for Halat Ammar Passenger Port (\$222M), SWCC facilities, and governorate complexes—all delivered within approved budgets.

Al Fawzani & Partners for Contracting

August 2011 – December 2013

Project Engineer

- Supervised site execution ensuring compliance with project specifications, quality standards, and safety protocols.
- Assisted in project planning, progress tracking, and quantity take-offs for payment certificates.

Jordan Gate Contracting (IU Group) & Omar Bin Al-Khattab Construction

January 2010 – August 2011

Site Engineer

Leading Jordanian contractors — 500+ & 300+ employees — residential, commercial & infrastructure projects. Amman, Jordan.

- Supervised daily site activities for residential, commercial, and infrastructure projects ensuring quality standards and specification compliance.
- Prepared daily progress reports, quantity take-offs, and work inspections; coordinated schedule updates with planning department.
