## PROFESSIONAL SUMMARY

Results-driven Senior Planning & Project Controls Lead with **15+ years** of experience in project scheduling, cost control, and performance analysis across major EPC, governmental, and healthcare infrastructure projects in Saudi Arabia. Expert in Primavera P6, Earned Value Management (EVM), and Power BI dashboards. Proven track record leading cross-functional project control teams and delivering data-driven insights to support strategic decision-making for projects valued over **\$400M**. PMP certified with deep knowledge of FIDIC contracts, delay analysis, and recovery planning.

## CORE COMPETENCIES

|                  |                                                                                |                |                                                                             |
|------------------|--------------------------------------------------------------------------------|----------------|-----------------------------------------------------------------------------|
| Project Controls | Planning, Scheduling, Cost Control, EVM, S-Curves, Forecasting                 | Scheduling     | Primavera P6, MS Project, Critical Path Analysis, TIA, Resource Loading     |
| Cost Management  | Budgeting, Cost Forecasting, Variance Analysis, Cash Flow, Commitment Tracking | Reporting & BI | Power BI, DAX, Power Query, Excel (Advanced), KPI Dashboards                |
| Delay & Claims   | EOT Analysis, Forensic Delay, FIDIC, Mitigation Strategies, Recovery Plans     | Leadership     | Team Supervision (5+ engineers), Cross-functional Coordination, PMO Support |

## PROFESSIONAL EXPERIENCE

- Omar Bin Al-Khattab Construction Company

Site Engineer

Aug 2010 – Aug 2011

  - Supervised daily site activities for residential and commercial projects in Amman, Jordan.
  - Coordinated with subcontractors, prepared daily progress reports, and monitored productivity.
- Al Fawzani & Partners for Contracting

Project Engineer

Aug 2011 – Dec 2013

  - Supervised site execution ensuring compliance with specifications and quality standards.
  - Assisted in project planning, progress tracking, and quantity take-offs for payment certificates.
- Al Fawzani & Partners for Contracting

Planning & Cost Control Engineer

Dec 2013 – May 2017

Leading Saudi contractor — 4,000+ employees — governmental infrastructure projects (MOH, MOI, MOF, MOT, Amanat Riyadh, RCRC). Riyadh, KSA.

  - Performed planning and cost control for large-scale governmental projects worth over \$300M.
  - Developed P6 schedules, cost baselines, and progress reports for port expansions, governorate complexes, and SWCC facilities.
  - Prepared monthly payment certificates, quantity verification, and cost variance reports.
  - Monitored project cash flow, commitment reports, and provided early warnings on budget overruns.
- Jadwa for Contracting Company

Planning & Cost Control Engineer

May 2017 – Oct 2022

Leading Saudi contractor — 1,500+ employees — building and infrastructure projects. Riyadh, KSA.

  - Led project controls for multiple commercial developments totaling \$55M+, including The Zone and Takhassusi Plaza.
  - Developed baseline schedules, cost reports, S-curves, and EVM analysis for luxury shopping centers and commercial plazas.
  - Coordinated with consultants for design change impact assessments, EOT claims, and recovery planning.
  - Managed procurement follow-up, subcontractor progress verification, and payment certificate reviews.
  - Prepared monthly progress invoices and monitored subcontractor productivity against baseline schedules.

Saudi general contractor — 2,000+ employees — building, infrastructure, and fit-out projects. Riyadh, KSA.

- Managed Primavera P6 schedules and cost control for NWC water network projects valued at \$42M.
- Performed EVM analysis, variance reporting, and monthly progress presentations to Client and Consultant.
- Coordinated with site teams and procurement to align material deliveries with construction schedules.
- Developed recovery schedules and delay analyses to minimize project overruns.
- Prepared monthly payment certificates and reviewed subcontractor invoices against completed works.

CAP France BAT for Contracting Company

Senior Planning & Cost Control Lead

Oct 2023 – Aug 2024

Specialized Saudi contractor — 1,500+ employees — complex building and infrastructure EPC projects. Riyadh, KSA.

- Supervised a team of 2 planning and cost engineers for project scheduling and cost control on MOF Building FB-01 (\$40.8M).
- Developed and maintained detailed Primavera P6 schedules aligned with contractual milestones, budgets, and resource plans.
- Prepared weekly/monthly progress reports, EVM analysis, and S-curves for Client and Consultant presentations.
- Managed cost control processes including budget tracking, commitment monitoring, and variance analysis against baselines.
- Designed automated Power BI dashboards for management KPI monitoring and recovery planning.
- Coordinated with engineering, procurement, and site teams to align schedule progress with cost performance and material deliveries.

Youssef Marroun Contracting Company

Senior Planning & Cost Control Lead

Aug 2024 – Present

Leading Saudi contractor — 3,000+ employees — large-scale infrastructure and building EPC projects. Riyadh, KSA.

- Supervise a team of 5 planning and cost engineers across multiple concurrent projects totaling \$250M+.
- Develop Primavera P6 schedules integrated with project budgets, procurement plans, and cost forecasts for the Dallah Healthcare Medical Complex (\$184M).
- Establish comprehensive cost tracking systems and Power BI dashboards linking baseline budgets with actual expenditures for executive reporting.
- Provide EVM analysis, S-curves, and variance reports at both project and portfolio levels to support strategic decision-making.
- Coordinate with Project Directors, Finance, and Procurement to synchronize schedule progress with financial performance.
- Lead internal project control meetings and present performance dashboards to executive leadership and clients.
- Establish standardized planning and cost control procedures, templates, and SOPs adopted across the department.
