PROFESSIONAL SUMMARY

Results-driven Senior Planning & Project Controls Lead with **15+ years** of experience in project scheduling, cost control, and performance analysis across major EPC, governmental, and healthcare infrastructure projects in Saudi Arabia. Expert in Primavera P6, Earned Value Management (EVM), and Power BI dashboards. Proven track record leading cross-functional project control teams and delivering data-driven insights to support strategic decision-making for projects valued over **\$400M**. PMP certified with deep knowledge of FIDIC contracts, delay analysis, and recovery planning.

CORE COMPETENCIES

Project Controls	Planning, Scheduling, Cost Control, EVM, S-Curves, Forecasting	Scheduling	Primavera P6, MS Project, Critical Path Analysis, TIA, Resource Loading
Cost Management	Budgeting, Cost Forecasting, Variance Analysis, Cash Flow, Commitment Tracking	Reporting & BI	Power BI, DAX, Power Query, Excel (Advanced), KPI Dashboards
Delay & Claims	EOT Analysis, Forensic Delay, FIDIC, Mitigation Strategies, Recovery Plans	Leadership	Team Supervision (5+ engineers), Cross-functional Coordination, PMO Support

PROFESSIONAL EXPERIENCE

Youssef Marroun Contracting Company Senior Planning & Cost Control Lead <i>Leading Saudi contractor — 3,000+ employees — large-scale infrastructure and building EPC projects. Riyadh, KSA.</i> - Supervise a team of 5 planning and cost engineers across multiple concurrent projects totaling \$250M+. - Develop Primavera P6 schedules integrated with budgets, procurement, and cost forecasts for the Dallah Healthcare Medical Complex (\$184M). - Establish cost tracking systems and Power BI dashboards linking baseline budgets with actual expenditures for executive reporting. - Provide EVM analysis, S-curves, and variance reports at project and portfolio levels for strategic decision-making. - Coordinate with Project Directors, Finance, and Procurement to synchronize schedule progress with financial performance. - Lead internal project control meetings and present dashboards to executive leadership and clients. - Establish standardized planning and cost control procedures and templates adopted across the department.	Aug 2024 – Present
CAP France BAT for Contracting Company Senior Planning & Cost Control Lead <i>Specialized Saudi contractor — 1,500+ employees — complex building and infrastructure EPC projects. Riyadh, KSA.</i> - Supervised a team of 2 planning and cost engineers for scheduling and cost control on MOF Building FB-01 (\$40.8M). - Developed detailed Primavera P6 schedules aligned with contractual milestones, budgets, and resource plans. - Prepared weekly/monthly progress reports, EVM analysis, and S-curves for Client and Consultant presentations. - Managed cost control including budget tracking, commitment monitoring, and variance analysis against baselines. - Designed automated Power BI dashboards for management KPI monitoring and recovery planning. - Coordinated with engineering, procurement, and site teams to align schedule progress with cost performance.	Oct 2023 – Aug 2024
Al Enjaz for Contracting Company Senior Planning & Cost Control Lead <i>Saudi general contractor — 2,000+ employees — building, infrastructure, and fit-out projects. Riyadh, KSA.</i> - Managed Primavera P6 schedules and cost control for NWC water network projects valued at \$42M. - Performed EVM analysis, variance reporting, and monthly progress presentations to Client and Consultant. - Coordinated with site teams and procurement to align material deliveries with construction schedules. - Developed recovery schedules and delay analyses to minimize project overruns. - Prepared monthly payment certificates and reviewed subcontractor invoices against completed works.	Oct 2022 – Oct 2023
Jadwa for Contracting Company Planning & Cost Control Engineer <i>Leading Saudi contractor — 1,500+ employees — building and infrastructure projects. Riyadh, KSA.</i> - Led project controls for multiple commercial developments totaling \$55M+ (The Zone and Takhassusi Plaza). - Developed baseline schedules, cost reports, S-curves, and EVM analysis for luxury shopping centers and commercial plazas. - Coordinated with consultants for design change impact assessments, EOT claims, and recovery planning. - Managed procurement follow-up, subcontractor progress verification, and payment certificate reviews. - Prepared monthly progress invoices and monitored subcontractor productivity against baseline schedules.	May 2017 – Oct 2022
Al Fawzani & Partners for Contracting Planning & Cost Control Engineer <i>Leading Saudi contractor — 4,000+ employees — governmental infrastructure projects (MOH, MOI, MOF, MOT, Amanat Riyadh, RCRC). Riyadh, KSA.</i> - Performed planning and cost control for large-scale governmental projects worth over \$300M (port expansions, governorate complexes, SWCC facilities). - Developed P6 schedules, cost baselines, and progress reports; prepared payment certificates and cost variance reports. - Monitored project cash flow, commitment reports, and provided early warnings on budget overruns.	Dec 2013 – May 2017
Al Fawzani & Partners for Contracting Project Engineer - Supervised site execution ensuring compliance with specifications and quality standards. - Assisted in project planning, progress tracking, and quantity take-offs for payment certificates.	Aug 2011 – Dec 2013

- Site Engineer
- Supervised daily site activities for residential and commercial projects in Amman, Jordan.
 - Coordinated with subcontractors, prepared daily progress reports, and monitored productivity.

EDUCATION

B.Sc. in Civil Engineering

Al-Balqa' Applied University, Jordan — 2009 | GPA: 2.98/4.0

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

PMP® — Project Management Professional

Certified Trainer — Jordan & Lebanese Engineers Association

Primavera P6 Advanced Scheduling

ISO 9001:2015 & ISO 45001:2018

AutoCAD 2D & 3D

GIS & Environmental Impact Assessment (EIA)

Power BI & Data Analytics
